PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554. Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298. The applicant is **Smyrna Ready Mix, LLC** with a mailing address of 4472 Hickory Grove Road, Murfreesboro, TN 37129. They seek to obtain an air contaminant permit (Division identification number: 75-0554-01/58672) to modify a Concrete Batch Plant located at the same address. This existing operation consists of a dry powder cement silo, fly ash silo, conveyors, weigh batcher, and associated equipment used to produce transit mix concrete. The requested modification is to increase production output to 200,000 cubic yards per year. A fabric filter is used to control particulate (TSP) emissions. There would be no physical construction. There would be an increase in regulated air contaminants emitted by this source. Mr. W. Medley is the assigned Division person.

Backed Certifi-
cates, Series 2003-
3, the current own-
er and holder of
said Deed of Trust,
